

DUMP TRAILER

D612

Compact design, rugged construction and a capacity suited to demanding work.

Recommended for ½ to ¾-ton trucks

11,000 lb	12′-4″	7 tons	2 × 7,000 lb
LOADING CAPACITY	INTERIOR LENGTH	CYLINDER FORCE	AXLES

Recommended use

For owners of a half-ton truck.

Ideal for hauling a variety of materials: firewood, branches, gravel, sand, soil or any other product.

Also suited for moving equipment such as tractors, ATVs, and more.

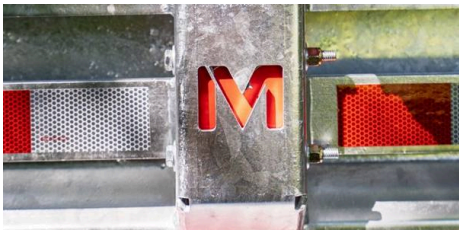
D612 Dump trailer

METAVIC
Créateur de plaisir en forêt

FEATURES

One-piece floor
Rugged design inspired by heavy-duty vehicles, built for repeated loading.

Tie-down bar
Several anchor points to secure your load.



Side pockets
Add posts, side extensions or D-rings for extra tie-down points.

Bolt-on fenders
Easy maintenance and replacement in case of damage.

Three-way rear doors
Spreading, fold-down tailgate and barn doors.

Electric hydraulic power unit
Raises and lowers the dump box simply and reliably.

Also standard: stabilizer jack, tarp with bearing-mounted roller and spare tire mount.
