

DUMP TRAILER

D714

A rugged and versatile trailer, designed to meet the needs of demanding work.

Recommended for ¾ to 1-ton trucks

12,000 lb	14’-4”	12 tons	2 × 8,000 lb
LOADING CAPACITY	INTERIOR LENGTH	CYLINDER FORCE	AXLES

Recommended use

For owners of a ¾ to 1-ton truck with multiple jobs requiring high transport volume.

Ideal for hauling a variety of materials: firewood, branches, gravel, sand, soil or any other product.

Also suited for moving equipment such as tractors, ATVs, excavators, and more.

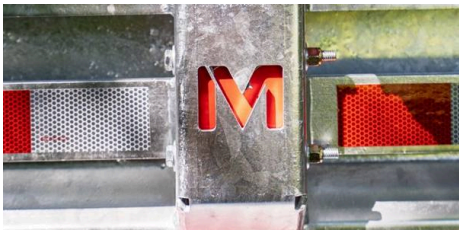
D714 Dump trailer

METAVIC
Créateur de plaisir en forêt

FEATURES

One-piece floor
Rugged design inspired by heavy-duty vehicles, built for repeated loading.

Tie-down bar
Several anchor points to secure your load.



Side pockets
Add posts, side extensions or D-rings for extra tie-down points.

Bolt-on fenders
Easy maintenance and replacement in case of damage.

Three-way rear doors
Spreading, fold-down tailgate and barn doors.

Electric hydraulic power unit
Raises and lowers the dump box simply and reliably.

Also standard: stabilizer jack, tarp with bearing-mounted roller and spare tire mount.
